TAFFETA FOR A PRACTICAL FROCK

By Betty Brown.

New York, Jan. 19.—The cool days of early spring demand at least one gown of silk to wear under the light topcoat and yet have a springy alr when the coat is laid aside. The model pictured is a practical dress of taffeta, semi-tailored and simply cut. Its bri-gades of buttons and the under-blouse of embroidered crepe are the

only trimming.
The skirt of this gown proves the designer is well aware of the new fashion dictum that skirts shall be shorter and the silhoutte as slender as

ALL SORTS AND CONDITIONS
OF WEATHER INSPIRE WRITERS
A Chattanooga educator in New
York, writes home concerning conditions, there, which should give heart,

say her kinspeople, to those in this locality, no matter how severe the pinch of the weather. She writes that while the school is well beated, her apartment, supposed to be steam-heated, is so cold that hot stowelids and hot-water bags are necessary to sustain bodily heat. Pupils fre-quently come to school crying with the cold and it is not an uncommon tually weeping. Several large hotels and office buildings have been closed for several days, not by order of the fuel administration, but because of the impossibility of obtaining coat.

Mrs. C. C. Huntington, writing from the west, says it is too warm to wear winter clothes out in California. She had just finished a dish or strawberries with the berries so large they had to be sliced, she said.

### LADY PINK TOES HAS HER INNINGS

There is no excuse today for women to have ugly, painful corns

For a few cents you can get a quar-ter ounce of the magic drug freezone recently discovered by a Cincinnati

chemist.

Apply a few drops of this freezone upon a tender, aching corn or callus and instantly, yes, immediately, all soreness disappears and shortly you will find the corn or callus so loose that you lift it out, root and all, with the fingers.

Just think! Not one bit of pain before applying freezone or afterwards. It doesn't even irritate the surrounding skin.

Hard corns, soft corns or corns between the toes, also hardened calluses on bottom of feet, just seem to shrivel up and fall off without hurting a particle. It is almost magical.—(Adv.)
